

I am writing because I listen to K-LOVE on my local FM translator. I know that many of my friends and family in the area also enjoy this radio station. If K-LOVE were to be displaced by another LPFM broadcaster it would be a great detriment to this community. There is no other broadcaster that provides the type of positive, family-oriented programming that K-LOVE does. I believe it is in the public interest to keep the current FM translator service as it is today.
